Soft Skills

- Collaboration and teamwork
- Empathy and understanding
- Passion and problem solving
- Giving and recieving Feedback
- Self-lead lerning and continuous improvement
- Motivating and empowering others
- Explaining complex ideas simply

About Me

I am experienced in media and design, particularly in the field of video, and have recently transitioned into software development.

I have excellent written and verbal communication skills, and value a collaborative culture of transparency and feedback. I enjoy problem solving, working around both technical and creative challenges to find interesting new solutions.
